

ABSTRACT

SYNTHESIS OF 4AMINO-2-BUTENOYL CHLORIDES AND THEIR USE IN THE
PREPARATION OF 3-CYANO QUINOLINES

5 This invention provides a compound of Formula (I):

wherein

10 S₁ and S₂ are each independently, hydrogen, alkyl, alkenyl, alkynyl, aralkyl, substituted or unsubstituted aryl, and S₁ and S₂ together with the nitrogen to which they are attached form a nitrogen containing heteroaryl and a pharmaceutically acceptable salt thereof; a method of preparing the compound of Formula (I), and use of the compound of Formula (I) in the preparation of 3-cyano quinolines.
